When charting Pneumonia or Flu vaccines:

- 1) Select the vaccine vial or syringe.
- 2) Scan it.
- 3) When you get a positive scan, it will turn green.
- 4) Once you press "ID Patient" and scan your patient's wrist band, the ACTIVE work list will change to your ADMIN List
- 5) You will notice to the right of the DRUG NAME, on your screen, you can now enter data into the "charted reason field."
- 6) Enter the lot number and manufacturer of the vaccine into this field
- 7) Then press chart.
