

PROCEDURE FOR: Storage of Medications in Central Sterile Supply/Instrument Room (CSS/IR)
- DRAFT

- POLICY:**
1. Only medications needed for preparation of intubation trays will be stored in the CSS/IR area.
 2. Medications will be stored in a locked cabinet.
 3. Staff will confirm that all medications used in intubation trays have an expiration date of at least 6 months from the date of tray assembly.
 4. Intubation trays will be labeled with the expiration date of any medications contained therein.
 5. Only those staff members who are responsible for preparing the intubation trays will have access to the medications.

APPROVAL: Nursing Administrative Council

EFFECTIVE DATE: 4/09
