

PROTOCOL FOR: Psychiatric Occupational Therapy (OT) Functional Assessment

- POLICY:**
1. Functional OT assessments will be performed when requested by the treatment team. The therapist is responsible for selecting the most appropriate assessment tool.
 2. The OT functional assessment data are reported at the treatment planning meetings and documented in the progress note section.
 3. Information may be relayed using the discharge planning form and/or a family meeting.

DESIRED PATIENT

- OUTCOMES:**
1. Patients will have functional assessment incorporated into planning for discharge as appropriate.
