

Respiratory Care Services Mission Statement

The mission of Respiratory Care Services is:

- to provide the highest quality respiratory patient care in a timely, effective, safe and efficient manner;
- to provide education programs for our staff as well as the Allied Health students we serve;
- to promote internally and with other areas of responsibility continuous quality improvement activities to improve the performance of the Respiratory Care Service as well as the overall performance of the organization;
- and to provide support for clinical research activities.

This requires that Respiratory Care Services assess needs, formulate action plans, instruct/inform as required, implement plans, evaluate actions taken for effectiveness and revise the action plan as needed
